Monash University
VIC, 3800

Dear Rich,

Thank you for your invitation to participate in the Public Talks initiative.

The Monash Student Association are interested in participating in this event and look forward to learning more about this initiative.

We are interested to see whether a new form of public dialogue is needed, and whether Public Talks is the way to go about international negotiation in the future. As mentioned, world opinion has a growing effect on national action and the MSA are interested to learn how we as a student association can have an effect in such diplomatic process.

We look forward to further participation,

Kind Regards,

Lauren O'Dwyer
